## OLD FLASK CONTAINED 'STIMULANT'

The little fishes in Lake Merritt displayed remarkable activity Saturday, leaping four feet out of the water and sporting themselves in shining schools about the lawn of the municipal museum.

It was all because the museum had been presented with an antique powder flask—or, rather, because the flask held powder. Gunpowder, as physicians declare, is a powerful heart stimulant, and that's the way it affected the fish when dissolved in the waters of the lake.

The old flask was presented by a friend of the museum and was found, when shaken, to contain something. This proved a grayish powder, nearly like dust. Attendants were about to throw it in the fireplace when Curator C. B. Whitcomb decided that it might be powder. It was: yellow with arsenic, but potent still, as attested by the fishes.

The old flask dates back to the days of the revolution.

Rev. W. K. Towner Asks Loyalty to Men Who Fought Saloons

Says Steps Are Being Taken to Discredit Commissioners

REV. WM. KEENEY TOWNER, pastor of the First Baptist Church, delivered before a large congregation last night a sermon on "How to Get Reform Measures Through a City Council." He spoke from the text: "I will make thee a fortified city." Jer. 1:18. His sermon, in part, was as follows:

"There are three possible kinds of city councils:

"A city council dependent upon professional politicians, backed by the Royal Arch and the liquor traffic, bound to do the will of its creators; "A city council dependent upon the will of the people, bound to do what the people believe is the desire of the majority of the citizens, and confident that the majority of the people believe in a clean city governed in the interests of decent morals and law and order; "A city council that believes right is right and that God is a God of righteousness, still a controlling force in the civic life of the community."

### DESERVE SUPPORT.

"Our city commissioners seem to be of the second class. They have hazarded their political lives on their confidence in the people, and the people must not betray that confidence. It is time to stand by and not to stand back, to come to the support of these men who have dared to offend tremendous private interests at the call of public duty. One way to get reform measures through a city council is to elect such a council and to stand with them in every advance. They are a great cornerstone in the wall of a fortified city."

### WILL NOT BETRAY.

## FORMER MAYOR GLASCOCK DEAD

Prominent Lawyer Passes Away After Extended Illness

The illness of former Mayor John R. Glascock, who was also an ex-congressman, news of which was first published yesterday, terminated fatally early today at Woodsides, near Redwood City, where he had recently resided. Heart trouble, complicated by asthma, caused his death.

Glascock was a member of the law firm of Glascock & Howard of this city, a staunch alumnus of the University of California, and a highly respected member of the legal profession.

A native of Mississippi, he came to California with his parents in the earliest 'sixties" and settled in this city. He was one of the earliest graduates of the University of California, obtaining his degree from that institution when it was a college. Two years ago he received the degree of doctor of laws from the university.

Glascock was very prominent in Masonic circles, and was formerly a member of the Athenian Club and the Berkeley Club, a literary organization of the college city.

### WAS DISTRICT ATTORNEY.

He began his political career in 1870, when he was elected district attorney of Alameda county. Twelve years later he was elected to Congress from the State at large, serving his constituency faithfully and being rewarded with the office of mayor in 1881.

His election as mayor came under the then new charter, and he was carried into

Prominent U.S. Naval Officials Are Visitors

Two interesting naval characters are now visiting in this city. Captain John D. McDonald, who fought in Dewey at Manila bay, is staying at the Hotel Oakland and visiting his sister, Miss E. A. McDonald.

Captain O. Berg, another Spanish-American war hero, who was with Hobson when the latter endeavored to bottle up Cervera's forces in the harbor of Santiago, is also here. Berg may be commissioned to man a vessel for the Huerta administration in Mexican waters.

## WHAT THE PEOPLE HAVE TO SAY TO THE CITY COMMISSIONERS

PLYMOUTH CHURCH (CONGREGATIONAL)

Albert W. Palmer, Minister.

Piedmont and Laurel Avenues, Oakland, California.

To the Honorable Mayor and City Commissioners of Oakland.

Resolved, that we, citizens of Oakland assembled in congregations of Plymouth Church, hereby express our appreciation of the courageous and definite forward step taken by your Honorable Mayor and City Commissioners in the passage to print on Friday last of the liquor ordinance reducing the number of liquor licenses to 200 on July 1, 1914, eliminating saloons from a large part of the area of the city, and providing other wholesome restrictions on the liquor business. While many of us feel the ordinance might well have gone further along certain lines, nevertheless in view of the criticism you are sure to receive at the hands of certain interests, we wish to extend to you our hearty approval of the altogether sane and conservative measure of advance marked by this ordinance.

Adopted by both morning and evening congregations at Plymouth Church, Sunday, November 9, 1913.

MABEL GOHRMAN, Clerk.

COLLECTIVE, O., Nov. 10.—Fifteen thousand officials and delegates have arrived here to attend the convention of the Anti-Saloon League of America, which will open tonight. Wooley of Wisconsin, once a prohibition candidate for president, and Governor Ben B. Hooper of Tennessee.

# B. S. NOT TO RECOGNIZE HUERTA

*Ye Olden Days* in Song  
Singers to Be in Costume

MRS. WILLIAM O. ATWATER, PRESIDENT OF THE WOMAN'S CLUB OF PLYMOUTH CHURCH.

Songs of "Ye Olden Days" with the, which will be given under the auspices of the Woman's Club of Plymouth Church.

Colonial costumes and costumes depicting the life of women since and earlier periods will be worn. Arrangements for the affair are being made by Mrs. W. O. Atwater, president of the Woman's Club.

NOT TO ADDRESS CONGRESS.

WASHINGTON, Nov. 10.—President Wilson today cleared the atmosphere of misgivings as to the interests of the United States. He made it clear that he had no intention at present of addressing Congress, because the situation was not in shape for him to have anything to say and that while certain representations had been made to the Huerta government no reply has been received, he believed that no time limit had been set for a reply from Huerta.

The President told inquirers he was not ready to discuss recognition of the constitutionalists and that his opposition to raising the embargo on arms had not been changed.

The text of the statement given to the diplomatic corps at midnight on Saturday by President Huerta reached here today from Charge O'Shaughnessy. Secretary Bryan would not comment on it further than to say last night's dispatches from Mexico City described it accurately.

CONGRESS ELECTION VALID?

Informal comments on Huerta's statement have, however, been made that while the elections of the president and vice-president were to be declared null and void Huerta intended to consider the election of congress valid. The Washington government regarded it as an inconsistency of which foreign nations must take cognizance.

In discussing the Mexican situation with a newspaper man the President spoke especially against reports representing the situation as more serious than it really was. The President pointed out that sensational reports embarrassed the task of the administration, especially when those reports predicted action in advance of action by the administration.

The first squadron of four troops of the Fifteenth cavalry, commanded by Joseph Garrard, left Fort Myer, Va., today by train for Fort Bliss, Texas, to relieve the third squadron of the Fifteenth cavalry, protecting the Mexican border. The movement is in accordance with orders issued a month ago.

Two squadrons of the Fifteenth cavalry at Fort Sheridan, Ill., and Fort Leavenworth, Kas., are to relieve the other two squadrons of the Fifth cavalry on the border and the Second cavalry is to be relieved by the Tenth cavalry, now at Fort Ethan Allen, Vt.

Orders have not yet been issued for the transfer of the Second and Fifth cavalry to their northern and eastern stations.

NOT LAST WORD.

One official, familiar with the exchanges with Huerta, said today that the latest representations from Washington were not such as to place President Wilson in the attitude of having said the last word if Huerta declined to abdicate. It was said that the language of the representations had not definitely cast on Huerta to resign, but made clear that if he had the good of Mexico at heart and really desired that some government in Mexico "be" recognized by the United States, he would retire from the scene.

The administration also understood to have indicated that if Huerta remained in power the United States would repudiate all his acts as well as those of the new congress.

Chairman Bacon of the Senate foreign relations committee, who called the White House, said this government would proceed cautiously, but with the same fixed purpose.

An official statement was issued by Charge Aligara of the Mexican embassy, stating that on November 20 next the legislative power assumed by President Huerta will be reinstated taking any further step.

Quiet prevailed in the city today.

DETROIT, Nov. 10.—The disastrous blizzard which swept Michigan and the great lakes all yesterday and last night subsided to a degree today.

CAPTAIN TUCKER AND THE EAGLE HARBOR LIFE SAVING CREW WERE COMPELLED SHORTLY AFTER LAST MIDNIGHT TO ABANDON A DESPERATE ATTEMPT TO REACH AN UNIDENTIFIED STEAMER WHICH LIES STRANDED ON GULL ROCK, MANITOUL ISLAND, OFF KEWENAW POINT, LAKE SUPERIOR.

### TRAINS BLOCKADED.

NEW YORK, Nov. 10.—Trains from the west from one to seven hours late reached New York today. The Twentieth Century Limited, due at 9:40 a. m., was posted to arrive between 8:40 and 9:40 p. m. Other New York Central trains were not so seriously delayed. Telegraph and telephone companies reported today that the center of wire demoralization was in and about Cleveland.

Messages for Chicago were sent via Atlanta, Memphis and St. Louis over three wires in place of the thirty-six which normally connect it with New York. There was only one wire be-

ween Union officials said the trouble was principally due to the blowing down of poles.

Practically all Pennsylvania trains due from the west were chalked up from one to seven hours late.

### VESSELS LATE.

DULUTH, Minn., Nov. 10.—Vessels are arriving in the Duluth harbor to-day from 10 to 15 hours late due to a storm that is raging over upper Lake Superior.

### WIRES DOWN.

CHICAGO, Nov. 10.—Telegraph service in certain sections of the country is demoralized as a result of yesterday's storm. The damage to the property of the telegraph companies is estimated at several hundred thousand dollars. The most serious condition was reported from Ohio and Pennsylvania, which were swept by a wind and sleet storm that carried down hundreds of miles of wire.

Damages done by a tremendous storm along the lake shore driven in by the 30-mile gale, is estimated at hundreds of thousands of dollars during the last 24 hours. It was averted.

Two deaths were reported here. Antonio Zupays and an unidentified man were blown into the Chicago river at different points and drowned.

The schooner C. J. Biss, laden with lumber, which was in distress late yesterday off the harbor, found out in safety and was towed in to-day by tug.

At the local weather bureau it was stated the storm, which started in British Columbia last Wednesday, is temporarily over so far as the Midwest is concerned, but another one quite as vigorous from the same quarter is due here next Wednesday. Official prediction this afternoon disclosed that the storm damage along the lake front will be at least \$700,000.

THE FIFTEEN CAVALRY.

BUFFALO, N. Y., Nov. 10.—The Fifteenth cavalry, commanded by Joseph Garrard, left Fort Myer, Va., today by train for Fort Bliss, Texas, to relieve the third squadron of the Fifteenth cavalry, protecting the Mexican border. The movement is in accordance with orders issued a month ago. Two squadrons of the Fifteenth cavalry at Fort Sheridan, Ill., and Fort Leavenworth, Kas., are to relieve the other two squadrons of the Fifth cavalry on the border and the Second cavalry is to be relieved by the Tenth cavalry, now at Fort Ethan Allen, Vt.

## CONVICT LABOR USED ON ROADS

13 States Passed Law During Year Allowing Prison Road Work.

(By EDMUND CRINNION.)

Thirteen States passed laws during the present year allowing the use of convicts in the construction and repair of highways, according to a compilation of Dr. E. Stagg Within, assistant in special legislation in Columbia University and chairman of the executive committee of the National Committee on Prison Labor.

The Oakland Advertising Association will hold its regular meeting tomorrow at 8:30 a.m. over a direct connection from Broadway and Seventh, across Broadway to Twelfth street, and across the lake to East Fourteenth street, continuing on that street to the corner of Loma avenue, Fruitvale.

FISH WILL NOT STARVE.

WASHINGTON, Nov. 10.—Fear that the fishing industry might be ruined by the immense catches of menhaden, used in the manufacture of oil and fertilizer, seems to be dispelled by a report from the United States fish commission, which declares the supply of menhaden does not appear to be diminishing. The menhaden, which is food for other fish, is exceedingly prolific and it is thought, in spite of the big catches of this fish all along the Atlantic coast, that the future supply is in no danger.

Another feature of the West Virginia law is the establishment of a State road bureau to supervise any plans proposed by a county for using prison labor in road building. The plans approved, the county shall apply to the Board of Control for the number of prisoners required, and shall state the length of time they shall be needed. The board shall, so far as possible, give equal service to each of the counties, and shall determine which prisoners may be assigned to such work. The warden is to provide suitable and moveable quarters which shall be built, where possible, by convict labor. The convicts shall remain under direct control of the warden in their work, however, being under the supervision of the road bureau.

In Iowa, the Board of Control of the State prison institution may permit male-bodied male prisoners to work on the roads. The law specifically states such labor shall not be leased to contractors. A prisoner opposed to such work, or whose character and disposition make it unlikely that he would attempt escape, will not be so worked on the highways, although the prisoners are under the jurisdiction of the warden while building or repairing roads, their work is supervised by the State highway commission. Prisoners employed on the highways of Iowa receive such part of their earnings, above the cost of their keep, as the board deems equitable, the earnings either being funded or given to their dependent families.

Before Iowa passed her present prison labor laws, George W. Cason, attorney-general of Iowa, and a member of the National Committee on Prison Labor, made a thorough investigation of the prisons of his own and other States, and strongly denounced the contract system under which the prisoners were employed up to that time. Mr. Cason drew up the road bill, and is of the opinion it will do much to drive the contract system out of the State.

FRANKLIN IS WINNER.

A Franklin won first prize in the large car class in the Mount Falcon hill climbing contest held by the Denver Motor Club under the auspices of the American Automobile Association. Mount Falcon is 3,000 feet high and the climb to the peak is very dangerous. The road up the steep part of the mountain is three and one-half miles long, rising in that distance 2,000 feet, and most of the grade is 30 per cent and over. The road zigzags up the mountain side, with a precipice on one side and a sheer wall of rock on the other, and just wide enough for one car. It places the larger cars have to back up to get around the sharp turns.

**STAND TO FACE OR  
STAND TO LOOK ON  
WIN BY A NOSE**

Issue Between Ignited Cigar  
and Olfactory Organ Be-  
comes Heated.

"And when man lights, with hot cigar,  
A Roman nose,  
Turning the organ to a hue  
Of fiery red,  
Who knows what angry feeling then  
A Roman knows?"

Sam Shortridge, the San Francisco attorney, and Frank S. Glass, the young Berkeley and Oakland clubman and son of Rear Admiral Glass, were friends but are not. When a man places a two-bit cigar—no matter what choice brand of Havana it is, so firmly against your nose as to cause a painful and unsightly splotch of red to appear, it's time to call a halt to friendship.

Glass' nose is of a brilliant hue, resembling the nose Omar Khayyam is credited with referring to thus: "Sometimes I think that never blooms

fully fair." Glass says it aroused his wife's suspicions and his own tender sensibilities.

At any rate, Glass has applied for justice. He demands of Shortridge a full statement of what occurred at the banquet, that his brilliant nose may be vindicated before the world. The burning of the nose is alleged to have occurred September 12, and the complaint sets forth that without cause or provocation the Glass nose was "willfully ignited." Shortridge says he will fight the case to the bitter end. Attorneys Dorsey and Henderson are counsel for Glass. Among the guests at the banquet were Judge and Mrs. H. A. Melvin and Haig Patigan, the sculptor. They may be called as witnesses.

ARAGONIA REACHES PORT**

BOSTON, Nov. 10.—The long overdue Hamburg-American liner Aragonia, concerning which considerable anxiety had been felt, crept in through the fog yesterday. She had been 121 days on the voyage from Yokohama. Captain Enigh said the steamer was forced to put in at Aden on the Red Sea for repairs to leaky boilers, and at Ponta Delgada for coal and water.

Differs From Police Chief, But

"I differ materially from Chief of Police W. J. Mr. Cora E. Jones, president of the Oakland Civic Center, and Dr. Susan J. Weston, president of the Child Welfare League, sat upon the platform, and Rev. Ray F. Carter, acting pastor of the church, introduced the speaker.

"You never can define vice or crime in terms of streets or city blocks," said the speaker. "It is like saying that what is right and legal on the ground floor and the ten floor of a building is wrong

fully fair." Glass says it aroused his wife's suspicions and his own tender sensibilities.

**ELEMENT OF PATHOS  
IN SLINGSBY FIGHT**

SAN FRANCISCO, Nov. 10.—An element of pathos was injected into the famous Slingsby baby substitution case yesterday when it became generally known that Lieutenant and Mrs. Slingsby for some time had been endeavoring to place the aged parents of Mrs. Slingsby in an old people's home in this city.

Because of the failure of the Slingsbys to strike the final bargain in the matter of the charge for perpetual care and keep, the negotiations are temporarily at a standstill.

Just now the objects of this purposeful benefaction, John M. Cutler and his wife, Ante Ives Cutler, are being housed at a sort of way station. They are at the boarding home conducted by Mrs. Eunice Woods, a professional nurse, at 2010 Union street. They have been out there for nearly a month.

WASHINGTON, Nov. 10.—Carl Browne of Coxey's army lane, well known in California, has presented to the clerk of the House a set of resolutions condemning Representative Mann, minority floor leader, for his efforts in blocking the Keating resolution to investigate labor conditions in Colorado.

The resolution was adopted at a meeting on Pennsylvania avenue last night, and describes the Colorado strike situation as the "most serious since Fort Sumter was fired on, saveing of conditions in Mexico, perplexing President Wilson and Huerta, too."

Dann's famous parliamentary strategem of "no quorum" is cited in the resolution as "a trick of tyranny as diabolical as his deceit in assuming that he is in sympathy with labor."

Roy Moore and Jimmy Fox Conclude Training for Wednesday Night's Battle.

## By THE TIMEKEEPER

HE lads who will provide the excitement at the West Oakland Club Wednesday night finished up their training today and Manager Tommy Simpson reports them all in the best of condition. A change has been announced in the card, George

Moffitt's Braves seemed to lose all their pep and hitting ability, as they lost to the Eagles Sunday, 14 to 7, in the first game. Although Jones played good ball at first and Holtkamp at third, and Jones and Geer, second and fourth scored bases, the others, Jewell, Phillips and Wilson could do little. McAllister twirled fine ball but the Braves lost.

In the second game Jewell and Cortez had a pitchers' battle, as both received excellent support, each hitting a home run, muffed by one of the Braves let in the tying run for the Eagles. Moverly and Cohen played well for the Eagles and West, the Braves' new catcher, played a good game behind the bat.

First game—  
Braves 7, 8, 4  
Eagles 1, 10, 6  
Batteries—McAllister and Wilson; Sing and Geer.  
Second game—

## SING LEE IS HIS NAME, and He's There

Shades of Coonface, behold a celestial box-fighter who really is one! Sing Lee is his name and he has been discovered by that enterprising young impresario, Jimmy Rohan. Sing Lee in action is a combination of a threshing machine, a carpet beater and a perpetual motion device. In full swing he appears to have more hands than a centipede has feet, and it is difficult to tell whether he is coming, going or standing on his feet or his head.

He and a newsboy tangled for two rounds at the Oakland Athletic Club yesterday afternoon, and they had to stop the fight for fear that a half dozen fans would laugh themselves to death.

Sing Lee is said to be a second Willie Hoppe. He will be matched with some slugger as a special addition to the Vaise-Azevedo card.

One Section for Men, One for Mayor to Recommend Election

Boston Reformer Explains His  
Plan Before Purity  
Congress.

MINNEAPOLIS, Nov. 10.—The combat  
of the immoral cafes. J. Frank  
Chase, secretary of the New England  
Watch and Ward Society of Boston, ad-  
dressing the International Purity Con-  
vention of "tri-partite saloons"—one part  
for men, one for women and one for  
couples.

The rule must be inflexible so far as  
the couples part is concerned; the with-  
drawal of either person means the with-  
drawal of both, for no man can  
remain in the couple's part." He said.

Chase would make it a punishable of-  
fense to rent a room for immoral pur-  
poses in a saloon. He said: "I am  
of the immoral lodging-houses. A law  
compelling the janitor to keep on file in  
certificates of each person living in a saloon  
was suggested as a means of eliminating  
the evils of the 'affinity' that."

Margaret E. Cooley, superintendent of  
the Florence E. Crittenden Home, New  
York, graphically told of the work of the  
woman's right court in that city.

Addressess also were made by Professor  
T. W. Shannon, Frankforton, Mo.; Miss  
Emma Lovell, Portland, Ore., and W. W.  
Suckman, Winnipeg.

SEGREGATION IN SCHOOLS.

Discussing a "constructive policy where-  
by the social evil may be reduced," Chief  
Justice Harry Olson of the Municipal  
Court of Chicago, who spoke yesterday  
before the congress, advocated the segre-  
gation of pupils in the schools and pri-  
vate instruction in special schools for  
sub-normal children. The proper training  
of the feeble-minded child, before it  
reaches the age of 12 years, he declared  
would reduce prostitution.

"We must look to the public schools,"  
he said, "for the early identification of the  
defectives. The identification of sub-  
normal defectives should be made before  
they reach the juvenile court."

"The public schools should be used as  
sealing houses. By means of the schools  
the public should be educated to the fact  
that they need not recruit the ranks of  
the underworld."

Only a small proportion of the tem-  
porary evils have passed the fifth grade  
in school, according to the speaker. He  
said many of them were feeble-minded, or  
at least below the normal, according to  
investigations made in the moral courts  
in Chicago. He would make renting of  
houses for immoral purposes a felony. Ne-  
lon, also an editor of San Francisco,  
discussed "Social and Moral Reform in the  
New China."

Anthony Comstock of New York told of  
his efforts in the suppression of vice.

erty, amounting to \$15,000, goes to the

OPEN AIR WINTER BAND  
CONCERT FILLS IDORA

The first concert of an open-air  
series of band concerts ever  
given in the bay region drew thou-  
sands of music lovers to Idora park  
yesterday to listen to Paul Steinford  
and his big band. So many visitors  
came to the park beautiful that the  
management made haste yesterday  
afternoon to open up the concessions,  
although they had been placed under  
water cover, and two weeks after the  
regular closing season, the park was  
humming at full blast last evening,  
with the race through the clouds and  
other joy devices liberally patronized.

The spectacle was an unusual one.  
Ever since the opening of Idora  
some seven years ago the park has  
closed, with the exception of the  
skating rink, for the winter about the  
middle of October. This year Paul  
Steinford decided to offer popular  
band concerts at the park as a bridge  
over the interval of winter weeks  
when no free popular music is avail-  
able.

Cloudless California winter weather  
drew the crowds out of doors yester-  
day, and in response to popular de-  
mand the park was opened up in all  
its attractions. The various employees  
being impressed into service on  
"sherry-up calls."

Steinford rendered two splendid  
programs, the afternoon concert be-  
ing in the canopied amphitheater and  
the evening concert in the theater  
building. Rehearsals are being held  
on the grounds to be given next eve-  
ning.

This preparation stands alone as a  
band music. It is not that revolution-  
ary in its composition, since it accom-  
plishes all that was ever claimed for  
music, besides, and other destructive  
mineral drugs, and yet it is abso-  
lutely a valuable product. It con-  
sists of an ingredient which serves the  
active purpose of stimulating each tiny  
nerve part of the tissues to the healthy  
and judicious selection of its own essen-  
tial constituents. There are more cases of  
rheumatism, locomotor atrophy,  
neuritis, neuritis, and similar diseases re-  
lief from the use of minerals than  
any people are aware of. These facts  
are brought out in a highly interesting  
article by the medical department  
of the *World Specific Co.*, 217 Sixth Street.

It is really free, together

Make Your Blood Pure and Immune With  
S. S. S.

In thousands of instances the most  
virulent types of blood troubles have  
been the result of coming in contact with  
disease germs in public places, and the  
apparently insignificant pimple has been the  
cause. It spreads with astonishing  
rapidity, often infecting the entire sys-  
tem in a few days.

It is fortunate, however, that there is  
a remedy to cope quickly and thoroughly  
with such a condition, and thanks to the  
energy of its producers the famous S. S.  
S. may now be had at most any drug  
store in the civilized world.

This preparation stands alone as a  
band music. It is not that revolution-

### YOUTH IN OLD AGE

#### Possible With Proper Care.

A few generations back a man of  
50 was considered old, gray-headed,  
and waiting for death. Note the  
change today; at a meeting of the  
Medico-Legal society, it was stated

that a man of 50 ought to have forty  
good years ahead of him and, thus,  
at ninety he is in the fullness of man-

hood. What if you have seen sixty, or  
seventy, or eighty years? You can still

have health, fresh air and exercise, with a  
simple diet and a sufficient amount of  
sleep will guard your health.
